IMPORTANT FACTS

- During the 1st policy year no changes are allowed to the initial fund selection.
- Partial Withdrawals from the policy or Surrender of the policy before a policy duration of 5 years will be subjected to the surrender charges as outlined in the policy contract.
- If the policy duration is greater than 2 years and you are unable to pay a premium your policy will continue in the same status once the fund value has a sufficient amount to pay any applicable charges.
- Guardian Life of the Caribbean Ltd. reserves the right to refuse an unscheduled premium.
- No premiums will be waived during the first three (3) months of any period of disablement.

LIFE . HEALTH. PENSIONS

INDIVIDUAL PERSONAL INVESTOR

An annuity plan
designed with
you in mind

HOW TO INVEST

If you have TTD \$500.00 a month or more at your disposable then you can choose how you wish to invest this premium. At issue you have a choice between 2 funds:

The **Moderate Fund**; for the prudent investor

The **Aggressive Fund**; for the bold investor

You can either choose to put all of your money in one fund or you can split the amount between funds.

If you choose to split the premium, then the minimum amount that can be placed in either fund is \$100.00.

During the 1st policy year no changes are allowed to the initial fund selection. However, from the 2nd policy year and onwards you receive 3 free fund transfers per policy year, after which any additional fund transfers will incur a \$25.00 transaction fee.

For an additional cost you can add on one of the following options to ensure you achieve your goals in the event of the unexpected

- 1. Waiver of Premium- Total Disability**
If you chose this rider you can have peace of mind in knowing that the company will pay your premiums on your behalf if you are unable to pursue any occupation due to a disability or otherwise as stated in your policy contract. This option is available to employed persons between the ages of 19 and 49 with the benefit ceasing at the policy anniversary preceding age 60.
- 2. Parental Waiver of Premium**
If you the payor, of the policy are unable to continue premium payments due to a permanent disability or illness as stated in your policy contract there is no need to worry. With this option during this period of disablement, your child's premiums will continue to be paid until either the policy anniversary preceding your child's 21st birthday or the payor's 65th birthday, whichever comes first. To qualify the life assured must be a child under the age of 16.

"Looking to make a downpayment on a home or invest in your child's future? An annuity is the key!"

HOW IT WORKS:

Unlike some annuity products all of your money is placed in the fund from the start and is not subject to any front end charges. Our annuity product allows you to make lump sum or scheduled premium payments for a minimum period of time. This is known as the accumulation phase. During this phase you will have a choice on how you wish to invest your money. After this phase you can make a partial withdrawal from the fund, continue premiums payments like before or choose from one of our maturity options.

PRODUCT FEATURES

Lump sum payments must be \$1,000.00 and above and can be deposited at any time.

The minimum premium is \$500.00 per month & can be paid either monthly, quarterly, bi-yearly or annually.

This plan can mature either at the minimum period of 5 years after issue or at your 100th birthday.

- Premiums can be increased or decreased at any time after issue, there is no waiting period!
- Premium increases subject to a minimum monthly increase of TTD \$100.00
 - Decreases cannot go below the minimum monthly premium of TTD \$500.00

Partial Withdrawals before maturity are allowable once the withdrawal is \$1,000 or more and the policy duration exceeds 5 years.

MATURITY OPTIONS

Use all or part of the savings to purchase an immediate annuity. The remainder of the plan savings if any, will be paid in cash.

Use all or part of the savings to purchase an immediate annuity that increases each year by 5%. This option offers protection against future inflation. The remainder of the plan savings if any, will be paid in cash.

An immediate annuity is a form of insurance that provides a fixed sum of money on maturity of the policy that will be paid to you, for a specific period of time, typically for the rest of your life. You can think of it as a pension you buy for yourself.
